

The HUMMUSHuis in Mechelen, the heart of Deep Democracy, is an atmospheric, authentic place where connection and co-creation are central. We are happy to welcome you in our house of more than 170 years old, completely renovated in 2021, where 4 beautiful spaces await you. You can contact us for the organization of a meeting, training, workshop and break-out sessions. Or are you looking for a coworking space? That is also possible.

We are perfectly accessible, a few minutes' walk from Mechelen station and within walking distance of the center. There is also parking in the nearby public car parks.
